Dear Simon

Some 3 years ago, we asked you to take over our fleet insurance requirements for our practice.

The quote you originally gave us was cheaper than the previous broker, but even more impressive, in times where all you hear about is car insurance premiums increasing by 30% each year; for the last 2 years you have managed to keep our premiums at the same level. I think that in this sector of the market, you have done incredibly well for us. You have done what a true broker should; that is to find the best cover for the best price possible.

I have in the past been mentioning you to all my clients, but now, I have even more reasons why they should insure through your firm.

Yours sincerely

Richard Fitton
